Examiner's Amendment

1. An Examiner's Amendment to the record appears below. Should the changes or additions be unacceptable to Applicant, an amendment may be filed as provided by 37 C.F.R. § 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the Issue Fee.

2. Pursuant to M.P.E.P. §606.01, this title has respectfully been changed to read as follows:

AND METHOD OF OPERATION THEREOF --**

3. Authorization for this examiner's amendment was given via e-mail (see attached) from Bruce E. Garlick (Reg. No. 36,520) on December 06, 2004 to correct minor noted informality on abstract. Correction is provided below on a separate page.

4. This communication warrants No Examiner's Reason for Allowance, applicant's reply makes evident the reasons for allowance, satisfying the "record as a whole" proviso of the rule 37 CFR 1.104(e). Specifically, the substance of applicant's remarks filed 9/02/04 primarily with respect to the added claim limitations (i.e. added features noted on remarks p. 8, lines 1-5) point out the reasons why claims are patentable over the references (see remarks p. 7-8), the reasons for allowance are in all probability evident from the record and no statement is deemed necessary (see MPEP 1302.14).

5. Claims 1-19 are allowed.

6. Double patent analysis has been performed with respect to issued patents having common relationship of inventorship and/or ownership with respect to the above-allowed claims, none are found to warrant a double patenting rejection.

7. Any comments Applicants considers necessary must be submitted no later than the payment of the Issue Fee and to avoid processing delays, should preferable accompany the Issue Fees. Such submission should be clearly labeled " Comments on Statement of Reasons for Allowance". In event of any post-allowance papers (e.g. IDS, 312 amendment, petition, etc.), Applicant is exhorted to mail papers to the Production Control branch in Publications or faxed to post-allowance papers correspondence branch at (703) 308-5864 to expedite issuing process or call PUB's Customer Service if any questions at (703) 305-8497.

A symbiotic computing system includes a plurality of symbiotic partners that are communicatively coupled with one another and each of which has a respective instance of a managed resource. One (or more) of the symbiotic partners receive input that affects a respective instance of the managed resource. Based upon the input, the symbiotic partner produces actions and transmits the actions to each other of the symbiotic partners. Upon receipt, each other of the symbiotic partners receives the actions and uses the actions to affect a respective instance of the managed resource to maintain coherency of the managed resource. The managed resource may include data entities such as data file, data bases, configuration files and source files and other types of resources such as video images, symbiotic relationship configurations and executables. Alterations made to an instance of the managed resource are made to each other instance of the managed.
